Wherever you are, you're at home in a Murvi

**MURVI**   
HAND CRAFTED IN DEVON SINCE 1980

“The Morello is our dream vehicle, and unlike most dreams this one continues to delight us daily”

Owners comment

welcome

## Welcome to Murvi where quality and choice comes as standard

At Murvi, we pride ourselves on listening to our customers. Murvis evolve to fit your needs, rather than drastically change.

Our attention to detail ensures every design is ergonomically and technically superb, visually outstanding and carefully tailored to suit each individual owner. With a large range of top quality fabrics, floor coverings, interior fittings and base vehicle options, you will be spoilt for choice.

One of the most appealing and unique features of all of our models are the spacious interiors; from the compact, medium wheel base Pimento to the long wheel base Morocco XL, each model offers a stunning, luxurious and open plan lounge area.

### An award winning company

Since 1980, we have won over 50 major awards, proving our reputation as one of the foremost independent British Motorhome manufacturers.

- Innovative design and construction
- Painstaking craftsmanship
- Quality materials
- Wide choice
- Genuine personal service
- Award winning designs
- Hand crafted since 1980

### Independent test reports

We regularly loan our vehicles to a number of motor caravanning magazines for comprehensive test reports. These tests are very detailed, exhaustive and totally unbiased. Let us know which model you are interested in and we'll send you the relevant test reports.

### Choosing your Murvi:

- Base vehicle type and optional van equipment including the exterior colour
- Murvi equipment - fridge type and size. The type of cooking equipment. Any special requirements
- Kitchen worktop and door colours
- Top quality fabrics - choose from an almost limitless range of colours, patterns and textures
- Carpet or vinyl for the floor
- Optional extras - awnings, audio visual equipment, bike racks and many more

### Free test drive

Before you purchase your Murvi we recommend that you visit our factory in Devon, near Plymouth. Here you'll be able to see all our models, check out the many different features you can include in your Murvi, then take a test drive to discover what makes Murvi so special.

As you walk round the factory you'll meet the team who will build your Murvi and see the quality of materials we use to manufacture and fit-out each vehicle. Ask any questions you like – at Murvi nothing is hidden from our customers, ensuring that you will have every confidence in your vehicle and the people who will build it to your exact specifications.

### Free overnight accommodation

In appreciation of your interest, and also understanding that you may have travelled some distance to visit us, we are pleased to offer you bed and breakfast accommodation at a local hotel, free of charge. If you are flying to Exeter or travelling by train, we will also arrange to collect and return you to the airport or station. Phone us on 01752 892200 now and book yourselves a Devon break that could change your life.

### Pre-owned Murvis

Murvi owners tend to cherish their vehicles for quite some time – mainly because we made sure the vehicle was exactly right for them when they bought it. However, when they eventually decide to change models, we are able to offer their previous Murvi for resale after it has been thoroughly checked, refurbished, serviced and tested as only the original manufacturer knows how. Give us a call and we'll let you know what we have available right now, or are expecting in the near future.

**MURVI** | HAND CRAFTED IN  DEVON SINCE 1980

"This new high top is seasoned with excellent design"

MMM magazine

the pimento

## the pimento

**The Pimento is both driveway and car park friendly, as well as providing the usual high-standard of Murvi build quality and unique style.**

The layout is similar to that of the multi award-winning Morello. The rear kitchen has been slightly reduced in size, but still offers the same options as the Morello. The washroom is full sized as in the Morello. As well as a spacious lounge, the Pimento offers a wide unobstructed sliding door for spectacular views.

The Pimento has an extremely comfortable, high back lengthways settee that easily converts into a full size double bed (190cm x 137cm) that, when made still allows easy access to the kitchen, washroom and cab. As with all Murvi models both the front seats swivel to enhance the feeling of space in the lounge and can be used when the bed has been made.

The Pimento rear seat can be reconfigured to face forward giving the option of up to two rear travel seats.

The Pimento is based on the Ford Transit L2H2 and the Fiat Ducato MWB. Ford offer the option of AWD (4X4) and a higher roof (H3) giving a minimum interior height of 2m. The option of single beds is only available on the Ford Pimento.

***Check our fully detailed specification and options sheet for more information.***

### Pimento

"Murvi's front lounge panel van conversion designs are legendary"

What Motorhome magazine

the pimento XL

## the pimento XL

The Pimento XL shares the same lounge as the award-winning Pimento but offers externally accessed rear storage area in a vehicle under 6m. Utilising the Pimento lounge allows the bathroom to move forward and gives space for a large rear storage area 550mm deep.

This area is perfect for all your outdoors equipment, such as camping chairs, awnings, hoses, walking boots, Wellingtons, barbecues...all the outdoor gear you could ever need.

The kitchen is extended and is as the multi award-winning Morello. The lounge focuses on a superbly comfortable inward-facing high back settee that allows plenty of space to stretch your legs and admire the view through the sliding side door.

The settee converts easily to a full size double bed that allows access from the cab area through to the washroom and kitchen.

Towards the rear there is a fully equipped washroom, while the multi-choice kitchen extends across the back adjacent to it. The kitchen worktop is larger than in most coach-built motorhomes.

The Pimento XL is based on the Ford Transit L3H2 and the Fiat Ducato LWB. Ford also offer the option of AWD (4X4) and a higher roof (H3) giving a minimum interior height of 2m. The option of single beds is available on both the Ford & Fiat Pimento XL.

***Check our fully detailed specification and options sheet for more information.***

Rear storage area

“The large lounge area puts many luxury coachbuilds to shame”

Motor Caravan Monthly Magazine

the morocco

## the morocco

**The Morocco is primarily designed to offer two single beds. Unlike other 6m van conversions with single beds, the Morocco manages to retain the large open-plan lounge that is the hallmark of all Murvi models.**

This is achieved by an innovative bed mechanism that allows the settee base to glide from its seat position to the other side of the lounge, making one of the single beds (183cm x 69cm) and the settee back easily hinges down to form the other bed (193cm x 84cm). This leaves ample room between the beds to allow easy access to the cab, kitchen and bathroom. The beds can alternatively be positioned to make a large double bed (193cm x 153cm max). The settee base incorporates a large storage area, ideal for storing all your bedding requirements.

The Morocco shares the same bathroom and kitchen as the Morello, however, to accommodate for the two single beds, the kitchen has been shortened slightly and an innovative worktop extension has been added. The shortened kitchen galley enhances the feeling of space in the Morocco.

The Morocco is only available on the Fiat Ducato LWB. The option of single beds is available on the Ford Morello and gives a similar layout to the Morocco.

***Check our fully detailed specification and options sheet for more information.***

### Morocco

"Probably the best van conversion lounge in Europe... superb style and space"

Motor Caravan Monthly Magazine

the morello

## the morello

**The Morello features a large L-shaped open lounge and gives fabulous unobstructed views through the sliding side door whilst retaining an amazing amount of storage space.**

The Morello kitchen and washroom are positioned at the rear of the vehicle and offer a multitude of options and more kitchen worktop than most much larger coach-built motorhomes.

The high-back lengthways settee is supremely comfortable and allows lounging like no other van conversion. The seat converts easily in to the bed, making a full size double bed (193cm x 137cm) that still allows easy access to the kitchen and washroom or the swivelled seats in the cab area.

The Morello rear seat can be reconfigured to face forward giving the option of up to two rear travel seats.

The Morello is based on the Ford Transit L3H2 and the Fiat Ducato LWB. Ford offer the option of AWD (4X4) and a higher roof (H3) giving a minimum interior height of 2m. The option of single beds is only available on the Ford morello.

***Check our fully detailed specification and options sheet for more information.***

### Morello

“Murvi’s front lounge panel van conversion designs are legendary”

What Motorhome magazine

ford single beds

## ford single beds

### Single beds are now an option on all Ford models.

The large open lounge area remains the same in each Murvi model giving you unobstructed views through the sliding side door when sat on the superbly comfortable high back settee.

The main difference with the single bed option is that the rear seat base is separate from the seat back, as in the Fiat based Morocco, but shorter. To make the passenger’s side single bed, the rear seat base will glide across on rollers to line up with the height adjustable passenger seat base, when it has been swivelled to face the rear end, it forms a comfortable bed (183cm x 70cm).

To make the driver’s side bed the seat back hinges down and forms a single bed (190cm x 77cm). This allows access between the beds from the cab to the kitchen area. The driver’s seat base is not needed to make this bed but if used it can extend the length by a further 30cm. The single beds can be pushed together to form a generous size double bed (190cm x 145cm). Rear seat belts are not available with the single bed option.

There is a wide range of options available from Ford, Front Wheel Drive is standard but there is also the option of Rear Wheel Drive, AWD (4X4) and a higher roof (H3) giving a minimum interior height of 2m.

**Check our fully detailed specification and options sheet for more information.**

### Pimento XL

Night Time

Rear storage area

"One of the best lounges you'll ever get in any motorhome"

'WHICH' Motorhome magazine

the XL range

## morello & morocco XL

**Whether based on the Morello or Morocco, the XL uses each models identical seating arrangement.**

The extra length provided by the XL gives a significant amount of additional work surface and storage space in the kitchen which enhances the lounge area adding to the unique, spacious feel throughout the entire interior of the XL.

Another benefit of the XL is the exterior storage space. The right-hand rear door of the vehicle opens to reveal a full-height storage area that is half the width of the vehicle and 450mm deep.

This area is perfect for all your outdoor equipment, such as folding bicycles, camping chairs, awnings, mains hook up leads, hoses, walking boots, Wellingtons, barbecues... all the outdoor gear you could ever need.

The rear compartment comes with two removable and height adjustable shelves. Both the shelves and the interior walls are manufactured from extremely durable materials, ensuring that the space is both easy to clean and hard wearing - perfectly designed for all your outdoors requirements!

The XL is based on the Fiat Ducato XLWB (6.363m) and the Ford Transit L4H3 (6.7m). The Morocco XL offers two singles or a double. Single beds are available as an option on the Ford Morello XL.

***Check our fully detailed specification and options sheet for more information.***
